NEW SIMPLIFIED EMERGENCY OPERATING PROCEDURES

Background:

As part of the required review and update to our emergency operating procedures (EOP) this year, we included the creation of a simplified EOP document for use by

The second page of the simplified EOPs is unique to every classroom and has blanks for each staff member to fill in related to building evacuation, contact information, etc. Much of this information is the same for every classroom in the school or in a particular area of the school. Having blanks for staff members to fill in helps promote staff members reviewing and becoming familiar with the document.

The following is a link to the simplified EOP template:
